INSPECTION SUMMARY

DVDs produced by Private were ordered from the internet. Contract inspectors reviewed seventeen DVDs and identified all performers by stage name or by still photographs taken from the video. All videos reviewed contained the required 2257 information in the proper format. A total of 258 performers were identified as appearing in the seventeen DVDs. Prior to the inspection, contract inspectors printed several still photographs of each performer's face from different camera angles. During the inspection, the still photographs were compared with the performer identification on record to ensure the identification was, in fact, of that performer.

After the inspection on November 16, 2006, it was determined Private had 2257 violations. These included missing photo identification for four performers and the DOB was not legible on one photo identification.

During this inspection, all provisions of 18 USC 2257 guidelines were followed by the inspection team.
